

Dance Highlights Weekend Feb. 14

• **MARDI GRAS** masquerade ball will open the University's third annual Winter Weekend, February 14 and 15.

The dance, to be held February 14 from 9:00 p.m. to midnight in the Hyattsville armory, will feature the coronation of king and queen of the Mardi Gras, chosen as a couple.

A house decoration contest will also be on the weekend's program. Sororities will be judged at 1:00 p.m. and fraternities at 2 p.m. on Saturday, February 15. The theme for the sororities is the basketball game with the Temple University "Owls." Fraternities will use the theme "Winter Fantasy." Trophies will be presented to the winning sorority and fraternity during halftime at the basketball game.

A jazz concert will be presented in the University gymnasium on February 15 in the early afternoon. That night the Colonials will meet Temple University at Uline arena at 8:15 p.m.

Tickets for Winter Weekend go on sale soon in the Student Union lobby. The weekend is included on the Campus Combo.

Co-chairmen of Winter Weekend are Marcia Saslaw and Bill Dotson.

... L. to R., Dean George Koehl of the Junior College; Miss Claire Chennault, one of the Co-chairmen of the Holiday Season at the University; Mrs. John Brewer, wife of the Professor of International Law; and Iradj Amini, son of the Ambassador of Iran, Ali Amini, admire a fanciful Santa Doll at the Christmas Party given December 16, 1957, in Lisner Lounge by the Faculty Women's Club and the Adviser to Students from Foreign countries. This is the first time that this has been done. Formerly the party was for foreign students only.

Mecheleciv Alters Policy On Articles

• **MECHELECIV**, THE UNIVERSITY'S only student magazine, published by the School of Engineering, is planning to increase the range of its activities, according to Ray Sullivan, editor-in-chief.

Beginning with the Spring issues, the magazine plans to liberalize its policy on article sources by accepting appropriate material from anyone associated with the University. Previously, contributions had been accepted only from the School of Engineering.

Mecheleciv also plans to choose for each issue a "Mech, Miss," picked from the student body. In addition, some of the two to three thousand copies of the magazine which are published six times a year will be sent to sororities and fraternities.

One of *Mecheleciv*'s major problems, Mr. Sullivan said, may still remain with the magazine next semester. For, he continued, although the staff has enough technical help, there is a definite lack of writers, artists and individuals with journalistic experience to work on the magazine. For this reason, primarily, *Mecheleciv* has decided to revise its policy so that any student or faculty member at the University may submit stories, articles or art work which per-

tain to Engineering. Even science fiction articles may be considered, according to the editor-in-chief, who said that the magazine is not interested only in technical articles.

Magazine Distribution

Mecheleciv is distributed to engineering students, who pay for it through their Engineering activities fee; professors, various engineering firms, other universities and all area secondary schools.

Self-Supporting

At the present time the magazine is largely self-supporting, receiving \$1200 each year from the Engineers' Council, a sum which accounts for only a third of the magazine's expenses. The remainder of its costs are met by advertising within the book.

In addition to Mr. Sullivan, there are two other members of the Board of Editors, Dick Rumke, associate editor, and Jim Lear, business manager. Cliff Hall is news editor, Ann Atkins is copy editor and Woody Everett is feature editor. Ralph De Lalla is circulation manager and Tom Coleman is advertising manager.

Handel's 'Messiah' Presentation Fills Lisner Auditorium

• **LISNER AUDITORIUM** WAS filled to capacity for the December 16 presentation of the Christmas portions of Handel's "Messiah" which opened holiday week celebrations at the University.

The performance was conducted by Capt. Robert L. Landers of the United States Air Force. Soloists were Patricia Randall, contralto, Mrs. Betty Waller, soprano, T/Sgt. Robert Kerns, baritone, and M/Sgt. Ivan Genuchi, tenor.

Backing them were the U. S. Air Force symphony orchestra and a choir of 120 voices, including the University's Messiah Chorus, the Air Force Singing Sergeants and the Elbrook Methodist church choir.

Pillrollers To Hold Annual Dance Fri.

• **THE FIRST FLOOR** of the Student Union will be the scene of the third annual Pillrollers' Ball this Friday from 9:00 p.m. to midnight.

All University students are invited to attend this admission-free dance sponsored by the Student Council, the Dance Production groups and the School of Pharmacy. Tom Miller's orchestra, which has played at many University functions this past year, will supply the music for the ball.

The hostesses, members of Alpha Delta Pi and Deuteron sororities, will wear prescription blank nametags. Another feature of the ball will be a lucky spot dance. A spot on the floor is chosen beforehand. When the music stops, the couple nearest that spot receives

a prize. Master of ceremonies Bill Dotson, Traveling Troubadours tenor soloist, and Jean Thorne, a pharmacy student, will entertain with an original song composed while on a recent Troubadours trip to Alaska.

Committee members for the dance include Jan Powers, Student Council Activities Director and mistress of ceremonies; Sam Toggas, Pharmacy School representative to the Student Council; Mr. Dotson; Pris Nickelson, decoration chairman, and Miss Burnier, professor of modern dance.

SC Plan Aids New Groups

• **STUDENT LIFE COMMITTEE** approval of a recommendation passed by the Student Council will ease the organizational procedure for new associations desiring University recognition and approval.

In a resolution passed November 13 by the Student Council, newly formed organizations may use the University name and facilities during a two month period while they are awaiting Student Life approval. By the end of this two-month period, the new club will have submitted a constitution, a list of officers, a list of members, and the name of the faculty advisor to the Student Life committee for final acceptance as an official organ of the University's extra curricular program. The two-month period is granted after initial approval of the organization by the Student Council.

At the present time it is difficult for a group to organize without usage of the University label and facilities. The new plan of the council would alleviate these existing problems.

The Student Life committee is expected to act soon on the proposal.

... The happy faces of these five children show how much they enjoyed the annual Orphans' Party given for them and many other orphans in this neighborhood by the University. Looking on at left is one of the group leaders for the party, which was held on December 19 from 7 to 9 p.m. The party was one of several events handled by the new Holiday Season Committee.

Newman Club Fetes Seniors

• **TEN OUTSTANDING SENIORS** will be spotlighted February 8 at the annual all-University Celebrity Capers.

The dance, sponsored by the University's Newman club, will be held from 9:00 p.m. to 12:30 in the Chantilly room of the Hamilton hotel. Lee Maxfield's orchestra will play.

Dress will be semi-formal. Admission is \$3.50 a couple, and tickets will be on sale in the Student Union lobby during the first week of the new semester.

The ten students to be honored at the dance will be chosen by the Newman Club on the basis of their general contributions to campus

HATCHET Meeting

• **THIS WEEK'S HATCHET** meeting will be held today at 12:30 p.m. in the back HATCHET office on the first floor of the Student Union annex. Assignments for next week's paper, the last issue of the semester, will be given out at the meeting.

life through scholarship and student activities. A special guest will be the Rev. Fr. Milton A. Schellenberg, who is serving the club as chaplain.

"There's a gal
who's going places!"

"She's a Service Representative for the telephone company,
—they're all grand gals to know.

"Most of them are just out of college, and they really
love their jobs. They're responsible for customer rela-
tions—help you arrange for telephone service, answer your
questions—to hear them talk, they never have a dull day.

"They meet a lot of interesting people, and they're
well paid. Good starting salary with frequent raises. Op-
portunities for promotion, too. Convenient hours, modern
offices—all around it's a good job for any smart girl."

Indeed it is! Perhaps you qualify. When your college
days are over, call or write our College Employment
Counselor, 725 13th Street, N. W., Washington, D. C.
She'll gladly discuss it with you.

TELEPHONE COMPANY

VOA Interviews Deuteron Prexy.

• DORIS ROSENBERG, president
of Deuteron sorority, was recently
interviewed over the Voice of
America for broadcast to Turkey
and English-speaking countries.

The purpose of the interview
was to discuss a typical American
college sorority—what it is, what
its goals are, and what its mem-
bers are like. Deuteron sorority, a
colony of Alpha Epsilon Phi na-
tional social sorority, was chosen
by the Voice of America for this
special broadcast. In addition, an
average day of a typical American
coed was also explored for the
overseas listeners.

In order to get the atmosphere
and background of a college dance
into the broadcast, the interview
was held at the Deuteron pledge
formal. The dance, Deuteron's first
pledge formal, took place Decem-
ber 21 at the Roger-Smith Hotel.

Semih Ustan, Turkish Producer
of the Voice of America, directed
the interview.

The Voice of America broad-
casts 24 hours a day to all parts
of the world. It is a part of the
United States Information Agency.

Semester Ends

• THE LAST DAY of classes for
the spring semester will be Wed-
nesday, January 15. Finals begin
the following Monday, January
20.

Slavic Department Holds Xmas Party

• THE DEPARTMENT OF Slavic languages is sponsoring a
Christmas party tomorrow in celebration of the holiday as
practiced by members of the Eastern Orthodox faith.

The party will be held in Woodhull C at 8:00 p.m. Among
the guests invited to attend will be the presidents of the Uni-

Contest About Peace Essay Opens

• THE ALEXANDER WIL-
BOURNE Weddell prize contest
will award \$350 for the best essay
on some phase of the promotion
of world peace.

The contest is open to all stu-
dents registered for a degree in the
University.

Essays entered should contain
at least 3000 words, and must be
accompanied by a bibliography of
the source material. All entries
should be submitted to Professor
Robert H. Moore, chairman of the
award committee, at the English
department office in building G.
The deadline date, in April, will be
announced next spring in the
HATCHET.

Any specific topic dealing with
any political, legal, economic, or
philosophical phase of orderly com-
munity adjustment will be accept-
able, according to the committee.
Members of the award committee
are Professors J. O. Murdock, Wil-
son E. Schmidt and Robert H.
Moore.

versity language clubs, the
president of the International
Students' Society and families
and friends of the students
participating in the program. The
majority of those present will be
the members of classes in the
Slavic department.

The purpose of the party, ac-
cording to Mrs. Helen Jacobson,
executive officer of the Slavic lan-
guage department, is to give stu-
dents of the Russian language an
opportunity to become acquainted
with the customs and lore of Rus-
sia and other Slavic nations.

The entire program has been
planned by students in the Russian
classes and is under Mrs. Jacob-
son's direction. Jean Child, chair-
man of the decoration committee,
has planned for traditional place
settings and room decorations to
be used at the party.

Yuletide Refreshments
In addition, traditional Yuletide
refreshments will be served at the
party. Most of these pastries and
drinks have been prepared by
girls in the language classes. Mary
Hoffman organized the project.

Entertainment
The entertainment committee,
headed by Diane Ferris, has
planned a program of choir music
and dances in addition to recita-
tions on Russian celebration of
this holiday, in order to acquaint
the guests with several phases of
the holiday. The dances will be
done in costume and many of the
recitations will be given in Rus-
sian. According to Mrs. Jacobson,
this gives the students an oppor-
tunity to put their classroom work
to practical use as well as enjoy-
ment.

Russian Caroling
Other features of the program
will be Russian caroling by every-
one, an accordion solo, a piano
number by Anita Raune, and a
guitar solo by Miriam Somers.

The Christmas party is one of
the two parties held each year by
the Slavic department. In the
spring, the Easter celebration is
presented by these students.

New Course Open In Secretarial Field

• "BUSINESS AND ECONOMIC
Analysis for Secretaries," a non-
credit course, will be offered by
the Division of Community Ser-
vices of the University from
January 8 through April 30 in
cooperation with chapters of the
National Secretaries association.

The course is open to secre-
taries preparing for the examina-
tion for the National Secretaries
Professional certificate and to
anyone who is interested in round-
ing out his or her knowledge on
the subjects to be covered.

The Division of Community
Services is the noncredit division
of the College of General Studies.
Information may be obtained at
706 20th Street, n.w.

Sticklers!

MEMO TO MAESTROS: is your band dawdling instead of
tootling? Is it full of feeble fifers and drooping drummers?
Well, this musical slowdown may be traceable to lack of
Luckies. Better give your band a break—and make it a
Lucky one! A Lucky, you see, is a light smoke—the right
smoke for everyone. It's all cigarette—all naturally light,
wonderfully good-tasting tobacco. And Luckies' fine to-
bacco is toasted to taste even better. Now then, what's a
marching band that never gets a Lucky break? Why, it's
a *Sore Corps!* (Wasn't that cymbal?)

STUCK FOR DOUGHT?
START STICKLING! MAKE \$25

We'll pay \$25 for every Stickler we print—and for
hundreds more that never get used! So start Stickling—they're so
easy you can think of dozens in seconds! Sticklers are simple riddles
with two-word rhyming answers. Both words must have the same
number of syllables. (Don't do drawings.) Send 'em all with your
name, address, college and class to Happy-Joe-Lucky, Box 67A,
Mount Vernon, N. Y.

LIGHT UP A *light* SMOKE—LIGHT UP A LUCKY!

Product of The American Tobacco Company—Tobacco is our middle name

Bulletin Board

• THE AESCULAPIAN SOCIETY will hear Dr. F. Ashburn speak on Friday, January 10, at 1:00 p.m. in Monroe 103. His topic will be "The History and an Insight into Thoracic Surgery." All premedical students are invited.

• THE INTERNATIONAL RELATIONS clubs will hold its last meeting of the current semester tomorrow at 8:00 p.m. in Building C, room 1. Mr. Howard Thomas, of the Vietnamese desk of the International Cooperation Administration, will speak on the value of economic aid and the development of such a program for an individual nation. All students of the University are welcome.

• HILLEL'S THIRD PROGRAM in its "Courtship and Marriage Series" entitled "Courtship and Marriage in the Bible" will be presented on Thursday, January 9, at 8:30 p.m. at 2129 F Street N.W. Rabbi Aaron Seidman will speak.

• THE WRITER'S CLUB meeting will be held tomorrow from 7:00 to 9:00 p.m. in Woodhull C. Mr. Orgel, press attache, will be guest speaker. All University students are welcome.

• THE AMERICAN SOCIETY OF

PIDE Holds Fall Initiation, Banquet

• PI DELTA EPSILON, national journalism honorary, held its fall initiation and banquet last month.

In ceremonies at Woodhull house, president Ronald West initiated Elaine Mosel, copy editor of the HATCHET; Michael Rumke of Mechelectv and Eugene Horowitz, business manager of the HATCHET. Bunny Miller, features editor of the HATCHET, who was unable to attend the initiation and dinner was initiated earlier in the day by Ernest Auerbach, past president.

Following the initiation ceremonies the customary initiation banquet was held at Cannon's Steak House.

PI Delta Epsilon is a national group with over 75 chapters in the United States. It is the oldest journalism honorary in the country.

The purpose of the group is to further the ideals of journalism and to provide to its members the opportunity to discuss mutual problems. The local chapter meets periodically to discuss the functioning of the member publications. Suggestions for improvements and ideas are exchanged. The group yearly sponsors the journalism forum at the Career Conference.

Officers of the University chapter are: president, Mr. West; vice president, Doris Rosenberg; secretary, Kitti Maddock; treasurer, Jim Lear; and historian, Elva Schroebel.

MELPAR NEEDS MEN TO TACKLE PROBLEMS NEVER SOLVED BEFORE

At Melpar our engineering staff is primarily concerned with the charting of courses into areas heretofore unexplored. The nature of our work ranges from the development of complete systems for radar, counter-measures, data reduction, computers, and communications to basic research and weapons systems analysis.

To encourage free, unhampered activity, Melpar has developed a unique basis of organization. Our project team system enables you to apply your engineering knowledge and talent to actual problems as soon as you join our organization, without undergoing a formal training program.

As a member of one of our project teams, composed of individuals having varied levels of experience, you will enjoy freedom and a team spirit found only in a young organization of our size. Each project group is charged with responsibility for solving problems from conception of idea through construction of prototype.

This system fosters your career, because it affords you the satisfaction of utilizing your talents and skill to the utmost. Also, it gives you the diversified experience necessary for eventual managerial responsibilities.

Our dynamic growth (we have doubled in size every 24 months for the past 11 years) constantly creates new middle and top level openings; our policy of individual recognition allows you to compete for them strictly on merit, and to receive financial compensation limited only by your ability.

You can select your fields of interest at Melpar, because our R & D activities cover virtually the entire electronic spectrum — we are presently engaged in more than 90 different projects.

Alone of all U.S. cities, Washington, D. C. and its suburbs are devoid of industrial congestion. Melpar, located on a 44 acre wooded tract in Fairfax County, Virginia, is traffic free minutes from lovely homes and apartments. The capital city with its world renowned cultural and recreational facilities is only 10 miles away. Outdoor recreation is possible 215 days of the year.

• Qualified candidates will be invited to visit the laboratory at Company expense.

• Financial assistance is extended for advanced study at any of the fine universities in our vicinity.

A. F. ROTC Presents Semester Awards

THE AIR FORCE ROTC recently made semester awards at the Winter Review at West Potomac park, near the Lincoln Memorial.

The Chicago Tribune Gold ROTC Medal was presented to Cadet Colonel Robert R. Reining, for "outstanding contribution to the ROTC program on the part of an advanced cadet." Col. Reining is the cadet commander of the corps at the University.

The Tribune Silver Medal was awarded Cadet Master Sergeant John V. Howie. The Silver Medal

is awarded to a basic cadet making an outstanding contribution to the corps.

Ten National Rifle association medals, including one for "Expert Rifleman" awarded to Miss Sidney S. Winkel of the Women's AFROTC, were presented.

"Sharpshooter" medals went to Igor Prochinski, Robert Jew, Robert Ridgway and Margorie Spencer.

"Marksman" medals were awarded to Thomas L. Dvorak, Alan Bow, Franklin Hum and Donald Borden.

Inquiring Reporter

by Kathie Forsheaw

DO YOU THINK there is any value in making New Year's resolutions?

Nani Fields: "I think they are made only to be broken. The longest they are kept is a week at the most. Actually, I think they are only something to talk about over the Christmas holidays."

Barbara Fabian: "I think they have value if we remember what they are and have the willpower to keep them."

Harold George: "People are only fooling themselves by making them, because they know darn well they aren't going to keep them."

Pat Kallis: "Resolutions are like men. If you work hard enough at them you can keep them."

Marilyn Penrod: "Resolutions are like Christmas cards. You display them for the season, then throw them away."

Paul Hastings: "Whether you keep them or not, I feel there is value in that they make one introspective."

Fran Visconti: "I think people make them to correct the foolish things you did the year before, but I think we keep on doing them anyway."

Bob Schaffer: "I don't believe in making them myself. However, I guess there are some people who feel they can make them and hold true to them."

by Hester Heale

IF IT IS AS hard for all G. W. students to return to school after the holidays as it is for Hester, well then, I sympathize with all. Though I do hope all had a terrific vacation and know they will put the same effort into studying for exams as they expended in holidaying.

Deuteron sorority had its first pledge formal at the Roger Smith Hotel on December 21. Social chairman was Elaine Cohen, and the music was provided by Larry Laine's Band. Prexy Doris Rosenberg welcomed everyone to the dance, and then surprised Jack Silas by crowning him Deuteron's first Dream King. Pledge trainer Rhoda Ezrin then introduced the members of Deuteron's first pledge class. Pledges and their dates were Cookie Fischgrund and Jack Silas, Dobra Bressler and Mike Mazetti, TC Aronoff and Herbie Ezrin, Joanne Kotzin and Phi Alpha Shelly Feldman, Janet Ginberg and Benton Becker, Brenda Friedenber and Sol Snyder, Mimi May and Roy Marks, Mike Abrams and Dick Chalkin, Diane Sugar and Phi Alpha prexy Richie Pincus, Phyllis Miller and Morty Berg, and Annette Felber and Eddie Moskowitz. A cocktail party at Phyllis Grossman's house before the dance and a gala after-dance party at Joan and Phyllis Begelman's rounded out the evening's festivities. Also, Deuteron Irene Wolfe is now going steady with Eddie Kimmelbat, and pledge Joanne Kotzin is pinned to Phi Alpha Shelly Feldman.

The Theta's also had their pledge formal, in far off Vienna, Virginia. A huge fireplace is reported to have added an original note to the affair. Seen doing polkas were husbands, fiancés, Deltas, SAE's, Sigma Nu's, and one Sigma Chi. . . . What, only one Sigma Chi?

Valerie Berman, Alpha Delta Pi, was crowned "Moonlight Girl"

of Phi Sigma Kappa at its annual Christmas formal on December 20. In an impressive ceremony which took place in the early evening, Miss Berman was presented with the traditional bouquet of carnations and crowned. She was chosen for this honor on the basis of looks, charm, and, needless to say, interest in Phi Sigma Kappa. Miss Berman was escorted by Sam Brown and the two led the other guests in a waltz.

One of the gayest of holiday affairs took place on December 22nd when HATCHET Editor Ernie Auerbach celebrated his 21st birthday at a party given by Editor and partner in crime Kittl Maddock. Among the guests were Judy Wilson, Fred Ferzanigan of LaFayette College, Al Rode and Meredith Eagon. Ernie was presented with a gift "for the man who has everything" . . . A White Nebish . . . (don't ask me what it is). The Nebish bore the sign, "I don't squeak, cry or talk, I just listen." The significance of this is easily discernable for those who know our busy boy editor. Congratulations, Ernie!!

Cissie Anderson, DG pledge, had an open house last week that seemed to have turned into one of the largest parties ever seen by student holiday eyes. In attendance were various and sundry Delta Gamma's including Connie McGoodwin, Kitty Hyland, Carol Wilson, and her fiancé, little Walter Jaenike, PIKA, and Inez Tonelli and her fiancé, Midshipman Tom Lukish. Also seen were Morna Campbell, KKG, Helen Niles, ChiO, and Elaine Cohen, Deuteron. The SAE's were well represented with the ever popular Billy Frank.

Hester bids you all a happy and prosperous New Year, and easy finals . . .

National Alumni Fund Committee Appoints 10

THE UNIVERSITY'S NATIONAL Alumni Fund chairman, George Muth, announced last month the appointment of ten University alumni to the National Alumni Fund committee of 1958.

Also, Mr. Muth reported that solicitation for the annual Alumni Giving program will begin February 1.

This will be the third national campaign held by the University alumni. More than half of the University's 32,000 alumni live in the Washington area, according to the office of Alumni relations.

Those named to the Committee are: Mr. Jack Morton of Jack Morton productions, representing Junior-Columbian colleges; Mr. E. E. Naylor, special assistant to the director of accounting and finance, HG USAF graduate schools; Dr. Donald Leeper, School of Medicine; Mr. Charles E. Eledger, jr., of Pledger, Edgerton and Richardson Law firm, Law school; Mr. Alfred Moe, project manager, Defense Department, School of Engineering, and Dr. Roy Eastin, executive officer of the Government

Printing Office, School of Government.

In Addition

Also, Mr. Morris Bortnick, owner, Connecticut Pharmacy, School of Pharmacy; Gen. William Rumbough (ret.), School of Education; Dr. John Latimer, professor of classical languages and literatures and assistant dean of faculties, representing the faculty, and Mr. Robert E. Newby, assistant to the president, Potomac Electric Power Company, in charge of regional coordination.

University Members

University staff members on the committee are Mr. Claude M. Farrington, assistant to the president of the University; Mr. Marvin Topping, assistant director of Development of the University, and Mr. Tom Brown, University director of alumni relations.

ATTENTION CLASS of '58!

If you're obtaining a degree in

- Electrical Engineering
- Engineering Physics
- Chemical Engineering
- Mechanical Engineering
- Mathematics
- Physics
- Physical Chemistry

there's a PERMANENT CAREER and UNLIMITED FUTURE awaiting you at

PHILCOI

If you want to do creative work on Television, Radio, Communications Equipment, Microwave Systems, Multiplex Equipment . . .

If you're interested in theoretical and experimental work in Solid State, Electron Optics, Acoustics, Applied Mathematics, Transistors and other Semi-Conductor devices . . .

If you prefer to apply your creative talents to the development and design of Refrigerators, Air Conditioners, Ranges, Home Laundry and other Household Appliances . . .

If you're intrigued by the challenge and complexity of the engineering problems in Guided Missiles, High Speed Data Processing, Bombing and Fire Control Systems, Infrared Devices and Underwater Ordnance . . .

If you want to launch your professional career in Systems Engineering, Automatic Machinery, Mechanized Equipment, Instrumentation and Controls . . .

If you'd like the chance to work with and gain inspiration from a distinguished

corps of scientists and engineers pioneering in new products, new techniques, new processes for the security, well-being and progress of the American public, American industry and the Armed Forces . . .

If you'd like to match your wits against truly worthwhile assignments and have confidence in your ability to take on increased responsibility and earn promotions on merit . . .

If you want to participate in the accomplishments and rewards of a continually expanding professional staff with endless opportunities for personal advancement and growth . . .

If you want to check your plans for the future against the ground-floor opportunities now existing in our Research and Engineering laboratories in the Philadelphia or San Francisco areas . . .

If you want to learn more about the advantages of working with Philco, the generous tuition refund plan, and other aids to your personal and professional development and growth . . .

then . . .

Indifferent Age?

• TO THE EDITORS: People rarely write letters to newspapers unless they have a complaint to make. Usually, the complaint concerns something that was printed, or omitted, or something that was printed incorrectly. My complaint is much less specific than that.

I have read the HATCHET for many years and have found it to be no better and no worse than most college papers of its kind. On occasion, it has even exhibited rare insight; the product, no doubt, of rare editors. But for the most part, it has wandered aimlessly through the alleys of boredom, reflecting so well the aimless students it represents.

This is why I, one of the many nameless faces in a sea of nameless souls, have chosen to write this letter. It is predicated on the hopeful hypothesis that a sudden shock, producing convulsions, will also produce changes. There is no empirical basis for this optimism; I know it only too well. But writing is a catharsis, and if ever a generation needed a laxative for its emancipation, it is ours.

Let us, first of all, begin with this institution of ours we so fondly name G.W.U. It calls itself a University, a seat of learning, a torch that should guide us in search of knowledge and truth. In its bare and ascetic rooms, we should become equipped with the tools that will help us to dispel the fears and masks of ignorance and injustice. Instead, what has it wrought? With rare exceptions, our curriculum equips us only to compete for the rewards of "success," to strive for high grades, to accumulate facts—in short, to delude us into thinking it is knowledge we are acquiring. What hypocrisy! While members of our faculty are pummeled to insensitivity by low salaries, administrative problems, departmental politics, and excessive teaching hours, the administration ponders heavily over the sorrows of dormitory space, our football and basketball teams, and the collection of greater moneys that will perpetuate this insensitivity in brand new buildings. Like so many other colleges, G.W.U. has become merely a training institution for future three-button narrow-brim inhabitants of suburbia, equipped with the rudimentary notebooks of facts needed for an upper-middle-class conversation at the Friday-night cocktail parties.

And what about our students? Are they willing to stand by and watch this delusion as it is perpetuated upon them? You bet they are! For in the jungle "outside" that we call the civilized world, they will be measured by the standards that were imposed on them here. That rare individual who fights against adjustment will be crucified by his fellow men; that is, if the shape of his soul has not already been stretched beyond recognition by his fellow students. The cry rings out through the University halls: Adjust! Adjust! Adjust! and it is echoed in every office, every home, every city within our land. Few people can resist this kind of pressure—and our generation is hardly one in which resistance to pressure stands out as a distinguishing characteristic. But why in heaven's name does a University—the last line of resistance—contribute so greatly to its perpetuation?

Passion against conformity has become trite. People tend to nod their heads and shrug their shoulders wearily at the rebel's cry, hoping to drown out the voices that stir that strange, though infrequent, longing in their breasts. If only its symptoms were as evident to all as the deadly plague—perhaps, then, they could rise en

masse from their callousness and take up arms!

Where is the spirit that once inflamed our youth? Where is that hatred of injustice that sent them to distant lands to fight against tyranny? Where is the compassion that offered a strong hand to the weak? Not in our world. Not in our land. Certainly not at G.W.U.

F. Scott Fitzgerald named his contemporaries "the lost generation." Well, we are lost no longer. We have found our haven in the blissful state of vegetation. Our refuge is an empty, drafty house, with windows that face our well-kept, fertilized, sterile lawns.

You who read this—where were you when your fellow-students raised their arms against dictatorship in Hungary? Where were you when the Supreme Court decision on segregation called for courage, vision, and determination? Where were you when anti-intellectualism ran rampant in your country? Buried in your books, perhaps, or running the gamut of forced revelry at Brownley's?

If there is someone left to baptize us a decade hence—let them speak the truth; there is only one name we deserve: "the indifferent generation!"

Rod Alexander
Class of '56

ODK

ODK will meet Thursday evening at 9:00 P.M. in Mr. De Angelis' office.

General Disinterest In Science Is A Big Problem, Says Dr. Naeser

by Gregg Mayer

• "THE ONE BIG thing the Sputnik has achieved is that it has focused attention on something scientists already know; we have fallen behind," said Dr. Naeser.

Dr. Naeser, executive officer of the chemistry department, continued, "there is a general disinterest in science, or in things generally intellectual. A way to increase science education is not by cutting down the amount of students majoring in the humanities, but by making it possible for the more capable people to attend college."

This issue is the one most commonly discussed these days, and Charles Naeser is a person qualified to talk about it. Dr. Naeser was educated in Wisconsin, attended the University of Illinois for graduate work in inorganic chemistry, and came to the University in 1935. Besides instructing courses in general chemistry and advanced inorganic chemistry, Dr. Naeser directs research for candidates for masters and doctoral work in inorganic chemistry.

The professor has taken three leaves of absence during his tenure at the University. During the war he was away for three and a half years; his activities then included working at the Army chemical center in Maryland. In 1950-51, he was in Heidelberg, as a scientific advisor for the government. The following year, Dr. Naeser was the chief of the chemical group of the geo-chemistry

and petrology branch of the U. S. Geological survey, and still serves as a consultant to the Survey.

When free from his work, Dr. Naeser likes hobbying with H₂O. That is, the Naeser family enjoys canoeing and fishing. The fishing is done "any place that's deep enough to wet a hook" and the canoeing takes place in northwest Ontario. Pitching in with the

background in English and mathematics is necessary. A high degree of proficiency in English is necessary so that a person can understand what he is reading, and also so that he can put down what he means. Mathematics is necessary in order for persons to make qualitative calculations.

There are always students cramming or worrying over various science courses. Words of advice which have been uttered many times still hold true, says Dr. Naeser. The biggest difficulty with people beginning chemistry is that they overlook the daily preparation. A subject which develops vertically must be understood from one rung of the ladder, so to speak, to the other. Unless one keeps up with the development of the assignments, the subject soon become unintelligible.

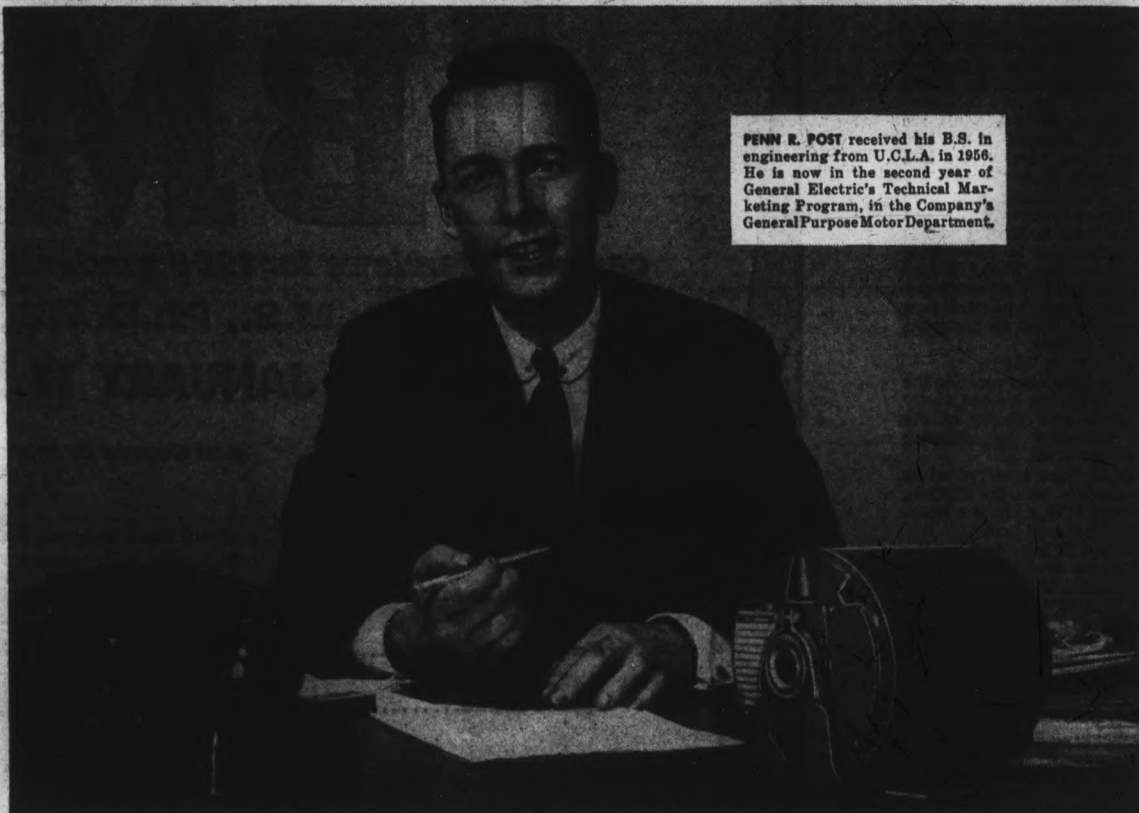

In a field such as this, where the greatest problem is in keeping up, there is little time for anyone to sit back and think he is done. That is a fact well known to Dr. Naeser.

Current History

The final examination in History 191 will be given Friday, January 10 at 12:10 P.M. in Government 1.

camping and canoeing is Mrs. Naeser and the two children, a son who is a high school senior and a daughter in the eighth grade.

Professor Naeser feels that young people should be taught science in elementary and secondary school, so that they could have an interest in it upon reaching college. However, a good

PENN R. POST received his B.S. in engineering from U.C.L.A. in 1956. He is now in the second year of General Electric's Technical Marketing Program, in the Company's General Purpose Motor Department.

"In a growing industry, there's room for me to grow"

"Here at General Electric," says Penn R. Post, 24-year-old marketing trainee, "you hear a lot of talk about the future—even as far ahead as 1978. In fact, I've discovered that planning ahead for America's needs 10 and 20 years from now is characteristic of the electrical industry. And, what's important to me, General Electric's long-range planning takes my future into account. I'm now on my fourth assignment in the Company's Technical Marketing Program—all planned steps in my development.

"I'm pretty confident about the electrical future, too. For one thing, America's use of electricity has been doubling every ten years. And it will increase even faster as our population grows another 65 million by 1978—and as research and development lead to new electrical products that help people live better. The way I look at it, the technical, manufacturing and marketing resources of large companies like

General Electric are important factors in the growth of the electrical industry. And in a growing industry, there's room for me to grow."

Young people like Penn Post are an important part of General Electric's plans to meet the opportunities and challenges of the electrical future. Each of our 29,000 college-graduate employees is given opportunities for training and a climate for self-development that help him to achieve his fullest capabilities. For General Electric believes that the progress of any industry—and of the nation—depends on the progress of the people in it.

Colonials Play Georgetown Wed.

G. W. Finally Wins; Meets W. Va. Sat.

By BOB LIPMAN

• GEORGE WASHINGTON'S PROMISING Colonials face a full schedule this week. Tomorrow the Buff go against a good Georgetown team and Saturday face the number one team in the nation, West Virginia.

For the second time this season, the Colonials will face the number one ranked team. The Colonials were walloped by a strong North Carolina squad, then ranked in the top spot, but the Tar Heels were whipped by the Mountaineers, and West Virginia hasn't slowed down yet.

Sporting a 1-6 mark, the Colonials, trying to improve last year's 3-21 record, will meet a Georgetown team rated as one of the fairer teams in the area.

Led by Ken Prichette, Tom McCloskey and 6-9 Max Schmeling, the Hoyas will present a well-balanced attack at Uline Arena tomorrow night.

West Virginia's Mountaineers will be the Colonials' biggest challenge of the season. After stopping both Kentucky and North Carolina in the Kentucky Invitational, the Mountaineers went undefeated and are currently ranked number one in the nation.

West Virginia

The Mountaineers display one of the most balanced attacks in college basketball. Each of the first five players averages in double figures.

Starting for West Virginia are 6-10 Lloyd Sharrar, 6-3 Jerry West, 6-2 Don Vincent, 6-4 Bob Smith and 6-0 Joedy Gardner.

West, a sophomore, has been nothing short of sensational. West leads the team in scoring and is second to Sharrar in rebounding. With the freshmen, West averaged 19.5 points and 17.7 rebounds per game. Mountaineer basketball fans are comparing West to the great "Hot Rod" Hundley.

First Win

Over the Christmas vacation the Colonials broke the ice and finally gained their first victory of the current campaign by whipping Wake Forest 67-45.

It was an "iron team" effort as all five starters went the distance, even though G.W. made it a walk-away in the second half.

Guard Bill Telasky took up the slack for the usually dependable Gene Guarilla. Telasky ended up as high man for the night with 19 points. His five first half baskets gave the Colonials the spark they needed to stay ahead. Guarilla, meanwhile, was limited to one point in the first half, but the big 6-6 center became more aggressive and poured in 15 points in the second half.

The Deacons stayed close most of the first half on the layups of 6-6 center Dave Budd, who gave Guarilla a rough time on defense, and the long set shots of George Ritchie, 5-11.

Postponed Game

Washington Lee's Generals came into Uline Arena on December 20, but had to settle for a pre-game practice. The Uline basketball court was put over the Washington Presidents' hockey rink. The

ice melted and formed pools of water on the floor. The game was rescheduled for January 13.

Undeclared St. Johns walked all over G.W. in a regionally televised game last Saturday. The Redmen rolled up a 46-27 halftime lead and coasted to an 83-67 win.

Bernie Pascal paced all scorers with 23 points, while Al Seiden, who was previously averaging 20 points per game, was held to 11 points, although he sat out half the game.

G.W.'s only claim to fame was the court play of Gene Guarilla, who scored 18 points.

Carroll Hall Given Monetary Donation In Benefit Game

• CARROLL HALL RECEIVED \$4,381.01 from an exhibition game between the Washington Presidents and the New York Rangers at Uline Arena last Thursday.

A former newspaperman and George Washington sports publicity director, Hall lost his left eye when he was hit by a flying hockey puck. The Presidents and Rangers donated their services, as did personnel of Uline Arena.

General Manager Jerry DeLise of the Washington Club said the crowd of 2,264 paid a gross gate of \$6,792.50. Expenses were \$2,411.49, including amusement taxes, transportation and expenses of the Rangers, operating costs and ticket printing.

Hall served as sports publicity director of the George Washington University from the Fall of 1954 to the Spring of 1957. Hall was currently handling the Washington Presidents' publicity.

Alpha Epsilon Pi Leads Close Race

• IN LEAGUE F the Clowns came from behind to nip TKE 23-22. Paul Garner scored the winning point for the Clowns on a foul shot in the last two seconds of the game.

TKE fought hard and was leading the Clowns 19-14 with four minutes to play, but the Clowns tied the game up in the last minute and Garner went on to score the winning point.

Also in league F Sigma Chi B beat Kappa Alpha 8-6, but in the third period SX surged ahead, scoring 9 points to KA's 4.

High scorer for SX was Jack Tarr with eight, followed by Finley Lee and Bill Tomcowski with six each.

Intramural basketball will resume Wednesday night. League F plays Wednesday nights, league E

plays on Saturdays, and leagues A, B, C and D play on Sundays.

Intramural Standings

These are the latest intramural standings, and include these events: touch football, table tennis, golf, foul shooting, swimming, and bowling.

1. Alpha Epsilon Pi	859
2. Phi Alpha	569
3. Delta Theta Phi	531
4. Pi Kappa Alpha	514
5. Sigma Chi	479
6. Sigma Nu	402
7. Med. Sch.	377
8. Delta Tau Delta	362
9. Phi Sigma Kappa	359
10. Tau Epsilon Phi	276
11. Moonlighters	268
12. Sigma Alpha Epsilon	255
13. Theta Tau	207
14. Sigma Phi Epsilon	198
15. Tau Kappa Epsilon	196
16. Kappa Sigma	88
17. Kappa Alpha	88
18. Engineers	88
19. J. G. Adams	88
20. Acadia	88

SOME FACTS ABOUT IBM

The growth of the company has been spectacular since its inception in 1914. This has been especially true in recent years, as business, industry, science and government have turned increasingly to automation through electronic computers.

Such growth naturally provides many opportunities for advancement to well-qualified college graduates. IBM company policies and practices lay a firm groundwork for rewarding, enjoyable and secure careers.

At IBM, for example, individual merit is quickly recognized by increased responsibility and remuneration. Through "small-team" proj-

ect systems... cordial employee-management relations... excellent financial rewards... outstanding company-paid benefits... the potential exists for well-established careers. IBM-sponsored educational and training programs are among the most advanced in the American business world today.

IBM laboratories and manufacturing facilities are located in Endicott, Kingston, Owego, Poughkeepsie, Yorktown, N. Y.; San Jose, Calif.; Lexington, Ky.; and Rochester, Minn. Sales and service offices in 198 principal cities throughout the United States.

If you cannot attend interviews, write or call the manager of the nearest IBM office:
